

## Community Service Nomination for NARI Metro DC

NARI Metro DC partnered with Rebuilding Together DC • Alexandria this year to provide leadership, sponsorship, and hands-on work toward the nonprofits incredible community accomplishments.

With such strong correlations between safe, affordable housing and improved student achievement, adult job productivity, and increased health, our organization's work is critical to maintaining stable housing conditions for marginalized people in Washington, DC and Alexandria, VA. With the help of everyday citizen volunteers, skilled tradespeople and the support of funding partners, we provide housing security for hundreds of low-income homeowners in our region every year.

We achieve greater well-being by bringing volunteers and resources together to revitalize communities and improve the homes and lives of low-income residents. Our mission: repairing homes, revitalizing communities, rebuilding lives.

Since 1986, we've built a record of success in partnering with businesses, civic- and faith-based organizations to mobilize volunteers to make free critical home repairs and upgrades to low-income homeowners and community spaces that serve vulnerable neighborhoods. During 33 years, 28,408 volunteers have worked on 2,200+ projects, leveraging \$9 million worth of in-kind value to our area.

Rebuilding Together DC • Alexandria, hosted its annual National Rebuilding Day on April 27 and NARI joined over 700 volunteers repairing 41 houses in Washington, DC and Alexandria, VA.

Rebuilding Together DC • Alexandria is honored to partner with NARI Metro DC and for the opportunity to serve those in need in our region.

## NARI Community Service Achievement Award Recommendation from Rebuilding Together Montgomery County

Rebuilding Together Montgomery County RTMC, are proud to nominate NARI Metro DC for their incredible support of our Mission of “Repairing Homes, Revitalizing Communities and Rebuilding lives” here in Montgomery County.

Through the NARI network we have been able to access the expertise to improve the living conditions and environments of low income homeowners and community organization. To help the elderly age in place in an environment free from hazards to their health, and by providing safe access and egress for those with mobility issues.

Through ensuring homes have clean running water, electrical systems that are safe, and roofs that are leak free and addressing hazards that cause slips, trips and falls.

The partnerships and support, the ability to have someone to pick up the phone to, who immediately understands our situation as a nonprofit with limited resources, and can help formulate ideas and open doors, make contacts through a terrific network of professionals – is invaluable. Of course I speak of Angela Hubbard executive Director of NARI Metro DC – a true community partner that leads by example.

This year NARI supported a community group Millcreek Parish Church in Rockville Maryland. During National rebuilding day. NARI provided expertise and funding to allow a financially challenged organization to continue their mission and ours. Angela was on site and got stuck into the work, true leadership. This was life changing for the homeowners, who had a fun day and a marvelous outcome.

NARI’s direct support and its ability to connect RTMC to others through the network, is amazing. The residents of Montgomery County sleep safer in their homes because of the NARI networks unwavering support of our mission.

We thank NARI, Angela and the network, from the bottom of our hearts. From our family to yours.
