JOB OPPORTUNITIES
All trades are hiring—your child can pick from many fields.

FOCUS + DIRECTION
Trade schools offer specialized skills training through small class sizes and hands-on learning most won’t find until they graduate from a 4-year program.

FLEXIBLE LEARNING
Some trade programs offer night, weekend and online classes for certifications, and many employers help pay for trade school while they work.

INDUSTRY CONNECTIONS
Most industry professionals partner with local trade schools through job placement programs.
